Work Place Environment

We believe that working with good people matters because then the work environment is good. If there is a sense of respect and belief among the people you work with, that is when good work is done. As a responsible apparel producer, we provide employees a work environment high above the law-required level. We installed and have updated lighting, ventilation and ergonomics of its plants using latest technologies like bus bar for electrical fitting, overhead mirror reflectors for lamps, forced duct ventilation and so on.

The goal is to exceed requirements of local legislation and reach the global standards, and thereby support clients' images and sourcing principles.

Moreover, usage of metal gloves in times of fabric cutting, needle guard in time of sewing and such similar procedures reduces significantly work-related accidents in ours. Besides being safe, our workplace offers a congenial & supporting environment for all: managerial staffs and workers work in mutual cooperation and respect.

We consciously put effort to empower woman not only by just recruiting more women in workforce, rather by undertaking some assertive programs to train & promote women in the higher levels.

This is our highly commitment.

Worker's Safety & Welfare

Besides paying a "living wage" which is substantially higher than the legal minimum, we support its employees by setting up welfare facilities like medical center, day-care center, and canteen.

The result is industry-low turnover rate in its workforce. Properly equipped with a team of full-time doctors and nurses, its medical unit extends consultation & medication to workers' general health care requirements. It also bears full expenses of treatment of any injuries incurred in working hours.

In base, day care center is not mere compliance with legal requirement, rather a pride-taking facility to take care & entertain children of working mothers. Spacious, highly hygienic, properly furnished and supervised by trained personnel – these day-care centers comfort working mother by ensuring quality time for their children.

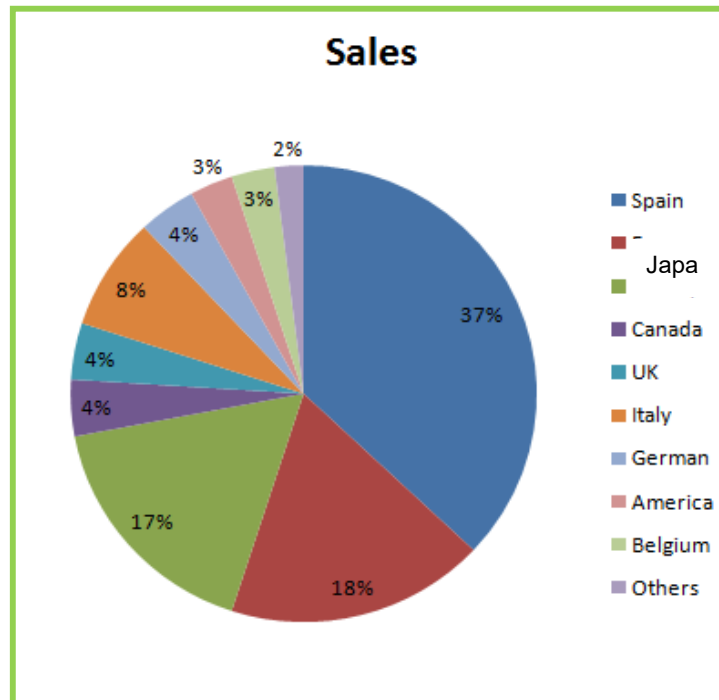

Moreover, adequate and facilitated arrangement of canteen, safe drinking waters, and hygienic lavatories make MFG a good place to work.

Additional Information

Furthermore, our factory has been inspected by ACCORD & got “YELLOW” but as enlighten you we were in old (Rented) building & now in own new Building as well as 100 times better condition than that before. When Accord made audit in our Old factory building, on that time they also audited our New Building structural condition, they mentioned it on their Structural report page no 14. Till we are in contact with ACCORD and according to their approval, installed our all Fire Detection & Protection system in new Building.

Unfortunately we don't have any contact with our Lead brand because of read off the buying house which was media of our business.
